

The Sea Cliff School Seven

Our Core School Values

Reasoned Decision Making

We have power over our decisions and decisions determine the costs and benefits of our future.

Self-Care and Health

Your mind and body are interdependent, we must take care of both of them in order to learn, grow, and help.

Developing a Voice

If there is something that we want to change in the world or ourselves, we have the power to stand up and make a difference, using our unique strengths and interests.

Growth Mindset and Goal Setting

Growth comes through a mix of several ingredients, all of which are needed:

setting very specific goals

working hard, persisting through difficulty, and learning from mistakes

using personal individual strengths and adapting to new information

staying focused over a long period of time

setting new goals when you are doing well

Creativity Out of Mistakes

Our abilities can always be improved. There are no failures when we reflect on mistakes and challenges to turn them into learning opportunities.

Self - Knowledge and Capitalizing on Human Differences

The only thing that is normal is difference; we all have unique strengths and weaknesses and we all need each other in order to learn, solve problems, and create.

Kindness and Respect

Our actions are contagious; each kind, inclusive, and respectful act encourages other people to act in similar way.
