

COMMUNITY BUDGET FORUM

Community Budget Forum (CBF) Positions Available

The District is looking for a number of qualified and varied community members to work with our administrators and staff to assist with the important responsibility of developing greater awareness of the budget process through education and training. The Community Budget Forum (CBF) will be charged with learning the general Public School budgeting processes as well as the specific details, procedures, and challenges specifically faced by the North Shore Schools' budget in both the long and short term. This training will be provided by District staff and begin January 27, 2022 at 7 PM.

After completing the training and educational process, CBF members will assist us in our efforts to inform and engage the community at-large by sharing information about the District's finances, processes, and upcoming 2022-23 budget.
