PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed school emergency plans required at the building level. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The North Shore School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

Students are involved in a wide variety of safety activities through both their classes as well as through work with guidance counselors, social workers, and school psychologists.

Each building has established a mechanism for the anonymous reporting of school violence and harassment and has communicated this to students and parents.¹²

The school district's Code of Conduct which is mailed to parents and disseminated to all students in the beginning of the school year during an assembly program, addresses bullying, violence and harassment and their consequences.

All staff members are trained in recognizing and effectively dealing with these behaviors, as outlined in the Code of Conduct.

PROACTIVE BUILDING SECURITY MEASURES

1. The District buildings use a limited points of entry system. All doors are locked. Signs are in place directing visitors to sign-in at the reception desk at each school. Main doors are controlled by remote “buzzer” entry during normal school hours.
2. All schools have security aids just inside the entrance to each school in the District. These security aids ensure visitor sign-in procedures and help supervise building traffic flow. The security aids are under the supervision of the building principals as well as the district safety and security coordinator.
3. Staff members are required to wear visible identification badges.
4. Visitors are required to present a driver's license which is scanned into the Visitor Management System. Visitors will receive an identification badge which must be worn at all times.
5. Visitor access is limited to specific areas of the school building.

VITAL EDUCATIONAL INFORMATION¹⁶

Information on each building’s student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR¹⁷

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A summary of the District’s Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for bullying, violence, and harassment.

¹⁶ 155.17(c)(2)(h)(3)(i) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

¹⁷ 155.17(c)(1)(xii) policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community and environmental factors, to teachers, administrators, school personnel including bus drivers and monitors, parents and other persons in parental relation to students of the school district or board, students and other persons deemed appropriate to receive such information;

2. A “plain language” summary of the Code of Conduct is mailed or emailed to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.
4. Efforts are made on the building level in each of the District’s schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Child Study Teams or their equivalents meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, parents/guardians and students are involved in this process.
5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.
6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual’s behavior, and on responsible decision-making.
7. Each of the District’s school psychologists/social workers facilitates counseling groups for identified students around issues related to poor social skills development, anger management, and good decision-making.
8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.
9. The District works in collaboration with building-level and District-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

PRIVATE SECURITY AND SCHOOL RESOURCE OFFICERS

This plan includes contracts or memoranda of understanding that define the relationship between the district, personnel, students, visitors, law enforcement, and public or private security personnel. These contracts or memoranda are consistent with the Code of Conduct, and define the roles, responsibilities, and involvement in the schools of law enforcement or security personnel. The role of school discipline is delegated to school administration.

SECTION III RESPONSE

NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

EXTERNAL

Anyone with knowledge of an incident is encouraged to immediately call 911 in an emergency.

The District's mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, Google groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of parents and students, the Superintendent or his designee will provide updated information to parents and students through the emergency notification system and to the following radio and television stations:

TV Channel NEWS 12 LI

TV Channel 4 WNBC

TV Channel 5 FOX

TV Channel 7 WABC

TV Channel 11 PIX 11

Online News Outlets: NEWS 12 ONLINE

When an emergency requires notification of staff, the Superintendent or his/her designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District's website: <http://www.northshore.k12.ny.us/>

During an emergency, all contact with the media will be handled either by the Superintendent or his/her designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or his/her designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

INTERNAL

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent's office to all administrators and administrative offices alerting them to the nature

and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

SITUATIONAL RESPONSES

MULTI-HAZARD RESPONSE

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building's administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or his/her designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other district schools, out-of-district schools, private schools, and outside agencies.

RESPONSES TO IMPLIED OR DIRECT THREATS OF VIOLENCE²⁰

¹⁹ 155.17(c)(1)(xv) the identification of appropriate responses to emergencies, including protocols for responding to bomb threats, hostage-takings, intrusions and kidnappings;

²⁰ 155.17(c)(1)(i) policies and procedures for responding to implied or direct threats of violence by students, teachers, other school personnel including bus drivers and monitors as well as visitors to the school, including threats by students against themselves, which for the purposes of this subdivision shall include suicide;

1. Students are required to inform school staff about any direct or indirect threat of violence or actual act of violence to themselves, others or school property.
2. Staff members are required to immediately inform the Principal or his / her designee of any direct or implied threat of violence or actual act of violence by students, teachers, other school personnel including bus drivers and monitors as well as visitors to the school, including threats by students against themselves, which shall include suicide. The Principal or her/his designee decides whether to utilize the building's trained clinician(s) in an effort to de-escalate or defuse the situation.
3. The district disseminates educational material, including but not limited to emails and formal brochures, encouraging parents and visitors to tell school staff about any direct or implied threat of violence or actual acts of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves.
4. After considering the specificity/generality of the threat or severity of the violent act, the Principal or her/his designee will determine whether to immediately contact the Superintendent of Schools or the Assistant Superintendent to advise them of the threat, obtain assistance to determine the severity of the threat or report the violent act. The Principal will have the discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.
5. Each building has the availability of a Threat Assessment Team. This is a multi-disciplinary team that uses a nationally recognized evidence-based model to evaluate threats and implement the necessary mitigation steps to help prevent a threat from escalation to an act of violence.
6. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct. Chronic offenders may require a behavior intervention plan, close monitoring, and/or police involvement.

Responses to Acts of Violence²¹

1. The Principal or her/his designee will determine whether to contact law enforcement personnel. **Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so).** Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.
2. The Principal, and/or her/his designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.
3. The Building-level Emergency Response Team (BERT) consisting of trained staff and school personnel may assist with an Evacuation, Lockout, Shelter – In – Place, Fire or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.
4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.
5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal are detailed in each building-level emergency plan. The use of the District’s mass communication system is typically utilized.
6. Aggressively dangerous and violent students, staff or visitors shall be managed as outlined by the procedures detailed in the district code of conduct.
7. The building administrator will investigate reported threats and reported acts of violence and will make the determination of disciplinary measures consistent with the District’s Code of Conduct.
8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.
9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Teams. These individuals and appropriate means of contact are documented in each Building-Level Emergency Response Plan.²²
10. The district has a zero-tolerance policy for acts of school violence.

²¹ 155.17(c)(1)(ii) policies and procedures for responding to acts of violence by students, teachers, other school personnel including bus drivers and monitors as well as visitors to the school, including consideration of zero-tolerance policies for school violence;

²² 155.17(c)(1)(iv) policies and procedures for contacting the appropriate law enforcement officials in the event of a violent incident;

STATE DISASTER EMERGENCY INVOLVING A COMMUNICABLE DISEASE

The following procedures provide a general overview of the District's response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

BACKGROUND

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared public health emergency involving a communicable disease. The new legislation will constitute New York State Labor Law [Section 27-c](#), and serves as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to [2801-a of the Education Law](#) that required additions to the District Plan.

Education Law - 2801-a (m) - protocols for responding to a declared state disaster emergency involving a communicable disease that are substantially consistent with the provisions of section twenty-seven-c of the labor law.

PROTOCOLS

1. In the event of a state-ordered reduction of the District's in-person workforce, the following is a list of **essential** employees.

Essential Position	Description
Administrative Personnel	All assigned members under the direction of the Superintendent, and Asst. Superintendents
Teaching Faculty & Teacher Aides & Monitors	All assigned members under the direction of the Superintendent, and Asst. Superintendents
Leadership Team	All assigned members to the Leadership Team.
Essential Clerical Staff	All assigned under the direction of the Assistant Supt. for Business
Security Team	Director of Facilities & Director of Security and all assigned guards.
Custodial & Maintenance Staff	Director of Facilities and all assigned staff.
Technology Staff	All assigned members under the direction of the Technology Director
Transportation Staff	All assigned under the direction of the Transportation Supervisor

2. In the event of a state ordered reduction of the District's in-person workforce the District will provide the opportunity for all **non-essential** employees the capability to telecommute including, but not limited to, facilitating or requesting the procurement, distribution, downloading and installation of any needed devices or technology, including software, data, office laptops or phones, and the transferring of office phone lines to work or other requested devices as practicable or applicable to the workplace. North Shore School District Staff will be guided on this as per the **Building Level Emergency Plans**, specifically the **Continuity of Operations and Continuity of Instruction** sections.
3. To the extent possible the District will stagger work shifts of essential employees in order to reduce overcrowding on public transportation systems and at worksites. In an effort to reduce overcrowding on public transportation:
 - Class schedules may be staggered to a morning and afternoon cohort.
 - In-person days may be staggered by cohort groups.
 - Students and staff may walk or drive a personal vehicle to campus.
 - Staff may be required to arrive on campus prior to students in a staggered work shift or staggered assigned day of work.
 - Employees may be permitted to work remotely.
 - Visitors may not be permitted on campus during school hours with the exception of pre-approved appointments and proper health screenings are conducted.
4. A quantity of personal protective equipment (PPE), sufficient to provide to all essential employees, will be procured, stored, and managed as follows:
 - Facilities will maintain inventory of PPE in accordance with the NYS Education Department guidelines, and continually restock the same as needed.
 - Storage of personal protective equipment will be on campus and comply with the manufacturer's storage recommendations for each item.
 - The equipment will be stored and readily available to any person in need of it.
5. In the event an employee is exposed to a known case of a communicable disease that is the subject of a state disaster emergency involving a communicable disease, exhibits symptoms of such disease, or tests positive for such disease, in order to prevent the spread or contraction of such disease in the workplace, the District has a set protocol to be followed for the exposure as well as the disinfecting of the affected work area(s). The District's **Building Level Emergency Plan** contains an **Infectious Disease Annex, section 25** which details:
 - In the event a person diagnosed with COVID-19 is determined to have been in the building and poses a risk to the community, programs may consider closing for a short time (1-2 days) for cleaning and disinfection.
 - Staff members who are showing symptoms must leave the building immediately.

- The district administrators will notify local health officials, staff, and families immediately of a possible case while maintaining confidentiality consistent with the Americans with Disabilities Act (ADA) and other applicable federal and state privacy laws.
- Persons who had close contact with a person diagnosed with COVID-19 will be advised to stay home and self-monitor for symptoms and to follow CDC-guidance if symptoms develop.
- Areas in the building will be closed off and not used before cleaning and disinfection.
- The custodial staff will be informed so that all desks, lockers, and workspaces of the person are thoroughly disinfected.
- Available leave options, for the affected employee(s), in the event of an employee's need to receive testing, treatment, isolation, or quarantine.

Note: Such protocol does not involve any action that would violate any existing federal, state, or local law, including sick leave or health information privacy.

6. All essential employees will have their hours and work locations documented, including off-site visits, by:

- All entrances are monitored by a security guard or monitor.
- All employees will use their access cards for entrance which documents their arrival on premises.
- All employees are required to complete a Health Attestation form (Electronic version or paper) prior to starting work each day.
- Payroll, attendance, and time cards will further document an employee's presence on campus. Employees required to punch in on the Wincap Attendance readers will be tracked through this device as well.
- Non essential visitors will not be allowed on site.

Such protocol shall be designed only to aid in tracking of the disease and to identify the population of exposed employees and contractors in order to facilitate the provision of any benefits which may be available to certain employees on that basis.

7. If emergency housing is needed to further contain the spread of the communicable disease, the North Shore School District (at their discretion) may lodge an essential employee at a local hotel bearing the full cost of the stay. Provided this is permissible under municipal law.

If there is a declared state disaster emergency involving a communicable disease that involves the North Shore School District, all staff, essential and non-essential, will be contacted, and they will be guided by the aforementioned protocols.

8. Any other requirements determined by the Department of Health such as contact tracing or testing, physical distancing, hygiene, disinfectant, or mask-wearing.
