PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed school emergency plans required at the building level. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The North Shore School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

3. In the event of an emergency or violent incident, the initial response at an individual school will be by the Building-level Emergency Response Planning Team.
4. Once the Superintendent and/or his/her designee are notified, the District Emergency Response Team may be mobilized to respond, and when appropriate, local emergency officials will be notified. All will follow the emergency management protocols and practices outlined in the National Incident Management System (NIMS) and will practice Incident Command System (ICS) techniques to better manage these events.

SECTION II RISK REDUCTION/PREVENTION AND INTERVENTION

PREVENTION AND INTERVENTION STRATEGIES²⁶

The District utilizes a variety of intervention strategies to reduce risk and prevent critical incidents.

1. The District utilizes trained multidisciplinary Threat Assessment Teams (*a.k.a. Behavioral Assessment Teams*) at each building to evaluate threats and implement the appropriate mitigation strategies. The District provides support and record keeping for the activities of each team.
2. The District has established a building-level and district-level multidisciplinary Behavioral Assessment Team which assesses whether certain exhibited behaviors or actions need intervention or other support. The Behavioral Assessment Team convenes annually to conduct staff training sessions on the safety and emergency procedures of such team.²⁷
3. The District Safety Team may utilize table top exercises to discuss their roles during an emergency and their responses to a sample emergency situation.²⁸
4. Any utilized school safety officers and other security personnel are trained annually with the assistance of one or more of the following collaborative relationships:
 - Emergency Responders
 - Regional BOCES
 - Mental Health Consultants
5. Training for school staff working in an incident control capacity may include:
 - a. Individual and group de-escalation techniques
 - b. Non-violent conflict resolution skills and
 - c. Peer Mediation and Youth Court

²⁶ 155.17(c)(1)(iii) appropriate prevention and intervention strategies, such as:(a) collaborative arrangements with State and local law enforcement officials, designed to ensure that school safety officers and other security personnel are adequately trained, including being trained to de-escalate potentially violent situations, and are effectively and fairly recruited;(b) where applicable, the establishment and/or participation of, school or district staff in a multi-disciplinary behavioral assessment team to assess whether certain exhibited behaviors or actions need intervention or other support, including a school or district-level behavioral assessment team or, if available, a county or regional threat assessment team. Where such teams are utilized, the district-wide school safety plan shall describe the school, district, or county team and its purpose, and annual staff training on safety and emergency procedures shall include information regarding the purpose and procedures of such team. (c) nonviolent conflict resolution training programs; (d) peer mediation programs and youth courts; and (e) extended day and other school safety programs.

²⁷155.17(c)(1)(iii)(b) where applicable, the establishment and/or participation of, school or district staff in a multi-disciplinary behavioral assessment team to assess whether certain exhibited behaviors or actions need intervention or other support, including a school or district-level behavioral assessment team or, if available, a county or regional threat assessment team. Where such teams are utilized, the district-wide school safety plan shall describe the school, district, or county team and its purpose, and annual staff training on safety and emergency procedures shall include information regarding the purpose and procedures of such team.

²⁸155.15(c)(1)(xiv)(3) Tabletop exercises may be utilized by school and district safety teams as a training resource and may include a discussion-based activity for staff in an informal classroom or meeting-type setting to discuss their roles during an emergency and their responses to a sample emergency situation.

6. The District may provide de-escalation techniques and nonviolent conflict resolution training to other staff annually. Each building has some staff trained in nonviolent conflict resolution.

Students are involved in a wide variety of safety activities through both their classes as well as through work with guidance counselors, social workers, and school psychologists. By October 1st of each school year, the superintendent and chief school administrator have provided written information to all students and staff about emergency procedures. During the first week of school, information on emergency response procedures will be emailed to all parents and guardians in the school district and that information will also be stored on the District website³¹

Each building has established a mechanism for the anonymous reporting of school violence and harassment and has communicated this to students and parents.³²

The school district's Code of Conduct which is mailed to parents and disseminated to all students in the beginning of the school year during an assembly program, addresses bullying, violence and harassment and their consequences.

All staff members are trained in recognizing and effectively dealing with these behaviors, as outlined in the Code of Conduct.

TRAINING, DRILLS AND EXERCISES

DRILLS AND EXERCISES:³³

General Guidelines for Drills

Trauma-Informed Approach: All drills conducted during the school day with students present will be conducted in a trauma-informed, developmentally, and age-appropriate manner. Props, actors, simulations, or tactics mimicking a school shooting, incident of violence, or other emergencies are strictly prohibited.³⁴ (Effective 7/31/24) The New York State Fire Code requires that the fire alarm be used in an evacuation (evacuate) drill, and it is not considered a prop.

Annual Training: Drills will be conducted only after annual training in emergency procedures has been provided to students and staff.

Varied Scheduling: Drills will be scheduled on different dates, days of the week, and during different times of the school day.³⁵

Exclusions for Unplanned Events: Unplanned evacuations or false alarms do not count as a required drill. Evacuations made necessary by the unplanned activation of the fire alarm system or by any other emergency shall not be substituted for a required evacuation (evacuate) drill.³⁶

Student/Staff Notification: At the time that drills are conducted, students and staff shall be informed that the activities being conducted are a drill. Provided, however, that students and staff shall not be informed in advance of evacuation (evacuate) drills. (Effective 7/31/24)³⁷

The appropriate Police Department may, upon mutual agreement with the District, participate in some or all of the drills and offer feedback regarding the effectiveness of these drills.

Full Scale Exercises: The district may opt to conduct functional exercises with emergency response agencies to involve staff, students and parents in realistic drills. Exercises that include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency may not be conducted on a regular school day and when school activities such as athletics are occurring on school grounds. Such exercises may not include students without written consent from parents or persons in parental relation.⁴⁴

The district does not plan to conduct functional exercises with emergency response agencies that involve staff, students, and parents in drills using props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency. Emergency response agencies are encouraged to participate in these exercises.⁴⁵

Drill Review and Protocol Updates: In addition to post-drill debriefings conducted by each building-level emergency response planning team, each building will complete a drill evaluation form that will be submitted to the district-wide safety team for periodic review, which includes observations from the drill as well as any additional feedback obtained from building personnel. Changes to procedures are made as needed. The district-wide safety team should evaluate communications and transportation systems during emergencies.⁴⁶

PROACTIVE BUILDING SECURITY MEASURES

1. The District buildings use a limited points of entry system. All doors are locked. Signs are in place directing visitors to sign-in at the reception desk at each school. Main doors are controlled by remote “buzzer” entry during normal school hours.
2. All schools have security aides just inside the entrance to each school in the District. These security aides ensure visitor sign-in procedures and help supervise building traffic flow. The security aides are under the supervision of the building principals as well as the district safety and security coordinator.
3. Staff members are required to wear visible identification badges.

⁴⁷155.17(c)(1)(xiii) policies and procedures for annual multi-hazard school safety training for staff and students, provided that the district must certify to the commissioner that all staff have undergone annual training by September 15, 2016 and each subsequent September 15th thereafter on the building-level emergency response plan which must include components on violence prevention and mental health, provided further that new employees hired after the start of the school year shall receive such training within 30 days of hire or as part of the district’s existing new hire training program, whichever is sooner;

VITAL EDUCATIONAL INFORMATION⁴⁹

Information on each building's student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR⁵⁰

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A summary of the District's Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for bullying, violence, and harassment.
2. A "plain language" summary of the Code of Conduct is mailed or emailed to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.
4. Efforts are made on the building level in each of the District's schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Child Study Teams or their equivalents meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, bus drivers and monitors, parents/guardians and students are involved in this process.

⁴⁹ 155.17(2)(ix) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

⁵⁰ 155.17(c)(1)(xii) policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community, and environmental factors to teachers, administrators, school personnel including bus drivers and monitors, parents [and] or other persons in parental relation to students of the school district or board, students and other persons deemed appropriate to receive such information;

5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.
6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual's behavior, and on responsible decision-making.
7. Each of the District's school psychologists/social workers facilitates counseling groups for identified students around issues related to poor social skills development, anger management, and good decision-making.
8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.
9. The District works in collaboration with building-level and District-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

5. Each building has the availability of a Threat Assessment Team. This is a multi-disciplinary team that uses a nationally recognized evidence-based model to evaluate threats and implement the necessary mitigation steps to help prevent a threat from escalation to an act of violence.
6. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct. Chronic offenders may require a behavior intervention plan, close monitoring, and/or police involvement.

⁵⁴ 155.17(c)(1)(i) policies and procedures for responding to implied or direct threats of violence by students, teachers, other school personnel including bus drivers and monitors, and visitors to the school, including threats by students against themselves, which for this subdivision shall include suicide;

RESPONSES TO ACTS OF VIOLENCE⁵⁵

1. The Principal or her/his designee will determine whether to contact law enforcement personnel. **Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so).** Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.
2. The Principal, and/or her/his designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.
3. The Building-level Emergency Response Planning Team consisting of trained staff and school personnel may assist with an Evacuation (Evacuate), Secure Lockout, Shelter-in-Place/Shelter, Hold-in-Place/Hold, Fire or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.
4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all Building-level Emergency Response Planning Team members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.
5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal or emergency closure are detailed in each building-level emergency plan. The use of the District's mass communication system is typically utilized.⁵⁶
6. Aggressively dangerous and violent students, teachers, other school personnel, bus drivers and monitors, or visitors shall be managed as outlined by the procedures detailed in the district code of conduct.
7. The building administrator will investigate reported threats and reported acts of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct.
8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.
9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-level Emergency Response Planning Teams. These individuals and appropriate means of contact are documented in each Building-Level Emergency Response Plan.⁵⁷

⁵⁵ 155.17(c)(1)(ii) policies and procedures for responding to acts of violence by students, teachers, other school personnel including bus drivers and monitors as well as visitors to the school, including consideration of zero-tolerance policies for school violence;

⁵⁶ 155.17(1)(ix) policies and procedures for contacting parents, guardians or persons in parental relation to the students of the district in the event of a violent incident or an early dismissal or emergency school closure

⁵⁷ 155.17(c)(1)(iv) policies and procedures for contacting the appropriate law enforcement officials in the event of a violent incident;

10. The district has a zero-tolerance policy for acts of school violence.

STATE DISASTER EMERGENCY INVOLVING A COMMUNICABLE DISEASE

The following procedures provide a general overview of the District's response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

BACKGROUND

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared public health emergency involving a communicable disease. The new legislation will constitute New York State Labor Law [Section 27-c](#), and serves as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to [2801-a of the Education Law](#) that required additions to the District Plan.

Education Law - 2801-a (m) - protocols for responding to a declared state disaster emergency involving a communicable disease that are substantially consistent with the provisions of section twenty-seven-c of the labor law.

PROTOCOLS

1. In the event of a state-ordered reduction of the District's in-person workforce, the following is a list of **essential** employees.

Essential Position	Description
Administrative Personnel	All assigned members under the direction of the Superintendent, and Asst. Superintendents
Teaching Faculty & Teacher Aides & Monitors	All assigned members under the direction of the Superintendent, and Asst. Superintendents
Leadership Team	All assigned members to the Leadership Team.
Essential Clerical Staff	All assigned under the direction of the Assistant Supt. for Business
Security Team	Director of Facilities & Director of Security and all assigned guards.
Custodial & Maintenance Staff	Director of Facilities and all assigned staff.
Technology Staff	All assigned members under the direction of the Technology Director

Transportation Staff	All assigned under the direction of the Transportation Supervisor
Food Services Staff	All applicable staff for food distribution, as needed.

2. In the event of a state ordered reduction of the District's in-person workforce the District will provide the opportunity for all **non-essential** employees the capability to telecommute including, but not limited to, facilitating or requesting the procurement, distribution, downloading and installation of any needed devices or technology, including software, data, office laptops or phones, and the transferring of office phone lines to work or other requested devices as practicable or applicable to the workplace. North Shore School District Staff will be guided on this as per the **Building Level Emergency Plans**, specifically the **Continuity of Operations and Continuity of Instruction** sections.
3. To the extent possible the District will stagger work shifts of essential employees in order to reduce overcrowding on public transportation systems and at worksites. In an effort to reduce overcrowding on public transportation:
 - Class schedules may be staggered to a morning and afternoon cohort.
 - In-person days may be staggered by cohort groups.
 - Students and staff may walk or drive a personal vehicle to campus.
 - Staff may be required to arrive on campus prior to students in a staggered work shift or staggered assigned day of work.
 - Employees may be permitted to work remotely.
 - Visitors may not be permitted on campus during school hours with the exception of pre-approved appointments and proper health screenings are conducted.
4. A quantity of personal protective equipment (PPE), sufficient to provide to all essential employees, will be procured, stored, and managed as follows:
 - Facilities will maintain inventory of PPE in accordance with the NYS Education Department guidelines, and continually restock the same as needed.
 - Storage of personal protective equipment will be on campus and comply with the manufacturer's storage recommendations for each item.
 - The equipment will be stored and readily available to any person in need of it.
5. In the event an employee is exposed to a known case of a communicable disease that is the subject of a state disaster emergency involving a communicable disease, exhibits symptoms of such disease, or tests positive for such disease, in order to prevent the spread or contraction of such disease in the workplace, the District has a set protocol to be followed for the exposure as well as the disinfecting of the affected work area(s). The District's **Building Level Emergency Plan** contains an **Infectious Disease Annex**, which details:

- In the event a person diagnosed with COVID-19 is determined to have been in the building and poses a risk to the community, programs may consider closing for a short time (1-2 days) for cleaning and disinfection.
- Staff members who are showing symptoms must leave the building immediately.
- The district administrators will notify local health officials, staff, and families immediately of a possible case while maintaining confidentiality consistent with the Americans with Disabilities Act (ADA) and other applicable federal and state privacy laws.
- Persons who had close contact with a person diagnosed with COVID-19 will be advised to stay home and self-monitor for symptoms and to follow CDC-guidance if symptoms develop.
- Areas in the building will be closed off and not used before cleaning and disinfection.
- The custodial staff will be informed so that all desks, lockers, and workspaces of the person are thoroughly disinfected.
- Available leave options, for the affected employee(s), in the event of an employee's need to receive testing, treatment, isolation, or quarantine.

Note: Such protocol does not involve any action that would violate any existing federal, state, or local law, including sick leave or health information privacy.

6. All essential employees will have their hours and work locations documented, including off-site visits, by:

- All entrances are monitored by a security guard or monitor.
- All employees will use their access cards for entrance which documents their arrival on premises.
- All employees are required to complete a Health Attestation form (Electronic version or paper) prior to starting work each day.
- Payroll, attendance, and time cards will further document an employee's presence on campus. Employees required to punch in on the Wincap Attendance readers will be tracked through this device as well.
- Non essential visitors will not be allowed on site.

Such protocol shall be designed only to aid in tracking of the disease and to identify the population of exposed employees and contractors in order to facilitate the provision of any benefits which may be available to certain employees on that basis.

7. If emergency housing is needed to further contain the spread of the communicable disease, the North Shore School District (at their discretion) may lodge an essential employee at a local hotel bearing the full cost of the stay. Provided this is permissible under municipal law.

If there is a declared state disaster emergency involving a communicable disease that involves the North Shore School District, all staff, essential and non-essential, will be contacted, and they will be guided by the aforementioned protocols.

8. Any other requirements determined by the Department of Health such as contract tracing or testing, physical distancing, hygiene, disinfectant, or mask-wearing.

IDENTIFICATION OF DISTRICT RESOURCES WHICH MAY BE AVAILABLE FOR USE DURING AN EMERGENCY⁵⁸

District resources are available in each building and stored in a central location. Each building will designate a Command Post. The list, which is not meant to be inclusive, requires the following items:

- Copy of District-Wide School Safety Plan
- Building-level Emergency Plan
- Quick reference Emergency Management Procedures
- List of emergency telephone numbers
- Building floor plans
- Telephones
- Radio communications
- Weather radio
- Flashlights

COORDINATION AND SCHOOL DISTRICT RESOURCES AND MANPOWER DURING EMERGENCIES⁵⁹

The District will, as appropriate, utilize all available manpower during an emergency. Within each building, schools may use the Staff All Call response protocol that quickly summons all available staff members to a staging area for assignments. Coordination of available employees is typically performed by the Principal or designee. Specific job duties will be assigned based on the type of emergency and in compliance with the appropriate district and building emergency response procedure. Additional district resources may be requested by any building administrator or designee as needed. The Superintendent or designee will call in all available maintenance and custodial staff to provide support

⁵⁸ 155.17(c)(1)(vii) except in a school district in a city having a population of more than one million inhabitants, the identification of district resources which may be available for use during an emergency;

⁵⁹ 155.17(c)(1)(viii) except in a school district in a city having a population of more than one million inhabitants, a description of procedures to coordinate the use of school district resources and manpower during emergencies, including identification of the officials authorized to make decisions and of the staff members assigned to provide assistance during emergencies;

during an emergency as needed. Assistance from outside government agencies may also be requested. A specific list of available resources may be found in Appendix 4 of this plan.

PARTICIPATING IN UNIFIED COMMAND UNDER ICS PRINCIPLES

ASSIGNMENT OF RESPONSIBILITIES

A chain of command consistent with the National Interagency Incident Management System (NIMS)/Incident Command System (ICS) will be used in response to an emergency. Members of the School, Emergency Response Team, will be part of this system. In the event of an emergency, the response team will adopt NIMS/ICS principles based on the size, scope, and character of the emergency.

1. All administrators and Building-level Emergency Response Planning Teams members shall complete the incident command training level one.
2. All District Emergency Response Team members shall complete incident command training level one and level two.

EMERGENCY REMOTE INSTRUCTION

OVERVIEW

The District may offer remote instruction days to students in the event-of-an-emergency condition, including, but not limited to, extraordinary adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of a school building, or a communicable disease outbreak.

When making decisions about remote instruction, the District will consult with students, parents, teachers, administrators, community members, and other stakeholders as appropriate. When implementing remote instruction, the District will ensure that it is complying with applicable teaching and learning requirements.

DEFINITIONS

- A. "Asynchronous instruction" means instruction where students engage in learning without the direct presence (remote or in-person) of a teacher.
- B. "Non-digital and/or audio-based instruction" means instruction accessed synchronously and/or asynchronously through paper-based materials where the student to teacher interaction occurs via telephone or other audio platforms.
- C. "Remote instruction" means instruction provided by an appropriately certified teacher who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.
 1. Remote instruction will encompass synchronous instruction provided through digital video- based technology and may also include asynchronous instruction intended to complement synchronous instruction. Digital video-based technology includes online technology and videoconferencing technology.
 2. Remote instruction may encompass non-digital and audio-based asynchronous and/or synchronous instruction where this instruction is more appropriate for a student's educational needs.
- D. "Synchronous instruction" means instruction where students engage in learning in the direct presence (remote or in-person) of a teacher in real time.

FORMATS AND METHODS OF REMOTE INSTRUCTION

Remote instruction may be delivered through a variety of formats and methods. Determinations about how to best deliver remote instruction will take into account a variety of factors including, but not limited to, the number of students involved, the subject matter, the students' grade levels, and technological resources of both the District and students. Consideration will also be given to whether accommodations need to be made for students with disabilities or English language learners. Each school's Building-level Emergency Response Plan will contain this confidential information in the Continuity of Instruction Plan

(COIP) section.

INSTRUCTIONAL OPTIONS

The District may engage students in synchronous and asynchronous learning on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is supplementary to synchronous instruction. When remote instruction by digital technology is unavailable, appropriate special accommodations for students will be made to aid their learning.

All students will have a District issued Chromebook and remote instruction will take place through Google Meet on a regular schedule similar to the school day schedule. In the event that technology is not available, materials will be distributed and student work returned at specific pick up locations designated by each school principal. The District will continue to explore alternate locations for in-person instruction as a priority and create possibilities for remote virtual learning if such an alternate location possibility cannot occur.

COMPUTER AND CONNECTIVITY ACCESS FOR STUDENTS

The District will ensure that students have the necessary equipment at home to participate in remote instruction.⁶⁰ No later than June 30th of each school year, the Superintendent will report to the Commissioner of Education the results of the survey on student access to computing devices and access to Internet connectivity on a form and format prescribed by the Commissioner.⁶¹ The information received from the survey will aid in the development/updates to the detailed Continuity of Instruction Plan in each school's Building-level Emergency Response Plan.

MINIMUM INSTRUCTIONAL HOURS

Remote instruction provided on days when the District would have otherwise closed due to an emergency condition may be counted toward the annual hourly requirement for the purpose of state aid. The Superintendent will certify to the New York State Education Department, on a form prescribed by the Commissioner, that an emergency condition existed on a previously scheduled school day and that the District was in session and provided remote instruction on that day and indicate how many instructional hours were provided on that day and certify that remote instruction was provided in accordance with the District's emergency remote instruction plan.

REMOTE INSTRUCTION SUPPORT

As necessary, the District will provide instruction on using remote instruction technology and IT support for students, teachers, and families. The District will also work to ensure that teachers and administrators are provided with professional development opportunities related to designing an effective remote instruction experience.

⁶⁰ 155.17(xxi)(a) ensure computing devices will be made available to students

⁶¹ 155.17(f)(2) Beginning in the 2022-2023 school year, each chief executive officer shall report to the Commissioner, no later than June 30 of each school year, on a form and format prescribed by the Commissioner, the results of the survey on student access to computing devices and access to internet connectivity

COMPLIANCE WITH DISTRICT POLICIES, PROCEDURES, AND THE CODE OF CONDUCT

Teachers and students are required to comply with any and all applicable District policies, procedures, and other related documents as they normally would for in-person instruction. Examples include, but are not limited to, the District's policies and procedures on non-discrimination and anti-harassment, acceptable use, and copyright. Students will also be required to abide by the rules contained within the *Code of Conduct* at all times while engaged in remote instruction. Violations of the *Code of Conduct* and/or engaging in prohibited conduct may result in disciplinary action as warranted.

PRIVACY AND SECURITY OF STUDENT AND TEACHER DATA

The District will take measures to protect the personally identifiable information of students and teachers from unauthorized disclosure or access when using remote instruction technologies in compliance with law, regulation, and District policy. Examples of these measures include, but are not limited to, minimizing the amount of data shared to only that which is necessary, de-identifying data, and using encryption or an equivalent technical control that renders personally identifiable information unusable, unreadable, or indecipherable to unauthorized persons when transmitted electronically.

SECTION IV COMMUNICATION WITH OTHERS

OBTAINING ASSISTANCE DURING EMERGENCIES FROM EMERGENCY SERVICE ORGANIZATIONS AND LOCAL GOVERNMENT AGENCIES⁶²

1. The district continues to work closely with local police, fire, EMS, and governmental agencies to obtain assistance during emergencies. As soon as practical, the Superintendent or his/her designee shall activate the emergency notification system that will provide relevant information. Parental notification procedures for a student involved in disciplinary situations shall be consistent with the Code of Conduct and New York State law, and shall be presented clearly and concisely to staff and students each year.

When a student is involved in any violent situation, or an implied or direct threat of violence by such student against themselves, including suicide, parent or guardian shall be contacted as soon as practicable.⁶⁵ Administrators shall also include and utilize school mental health resources.

Detailed grade-specific remote instructional procedures are contained within each building-level emergency plan.

Note: The local public Library online resources are available remotely and can be accessed by students who have a library card.

DISTRICT SUPPORT FOR BUILDINGS

When the Chief Emergency Officer is notified that an emergency exists, he/she will respond accordingly.

Members of the District Safety Team will assist as needed either at their respective Building Command Posts or by responding where directed by the Incident Commander(s). The District Safety Team will assign such other personnel as deemed necessary to meet the needs of the situation.

The District Safety Team members will remain at their assigned posts until the Incident Commander(s) has determined that the emergency is over, or it is unsafe, or no longer necessary to remain, or need to relocate.

Should the incident involve a single building, at the discretion of the District Safety Team leader in consultation with that building's administrators and Building-level Emergency Response Planning Team, other school buildings may be called to support the Building-level Emergency Response Planning Team in that building.

Should the incident involve multiple buildings, at the discretion of the District Safety Team leader, in consultation with building administrators, additional mental health support from the County Crisis Team and local area hospitals may be solicited to support the Emergency Response Teams in the affected building(s).

In any case, a “debriefing”, or post-incident analysis, will be facilitated by the District Safety Team. This process will include a review of the actual incident, the Team’s response to the incident, and identifying potential mental health needs.

District clinicians (or, mental health professionals from outside agencies if they have been involved) will provide ongoing as-needed support to the Team members, and will monitor post-traumatic stress symptoms in team members. As appropriate, team members may be provided with a referral to EAP and/or with information regarding private mental health providers in the area.

Principal(s) are expected to consult with the District Public Information Officer in composing letters to parents following any emergency. The District’s Public Information Officer will assist in sending mass communication messages to affected groups. The District’s Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary services following any emergency.

DISASTER MENTAL HEALTH SERVICES

The District Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary mental health services following any emergency. District mental health providers may be temporarily reassigned to assist in the recovery process.
